Storage & handling	Cutting
<ul> <li>Store packs on a clean surface and cover them</li> <li>Process from multiple packs at the same time</li> <li>Follow the Vandersanden processing guidelines</li> </ul>	Cutting with power tools may generate dust. This dust may contain silica or quartz particulate which may constitute a hazard. Persons undertaking work of this nature are advised to wear dust masks (FFP3).

\*All our Coated bricks are only coated on the facing sides. Coated products are specially labeled and recognisable with a "C" logo on the top left-hand side of the packaging. Always check if using coated or non-coated bricks. Match the mortar to the specified initial water absorption.
